

MAPUA-PTC

The JJUC has since 2009 in cooperation with PTC, sourced and sponsored cadets under the Marine Transport and the Marine Engineering programmes offered by the MAPUA-PTC College of Maritime Education and Training. Due to the market situation, presently no new cadets have been taken on during 2015. Selection of cadet candidates is based on thorough interviews with focus on personal capa-

bilities and their need for sponsorship. Based on the reputation of the MAPUA-PTC College of Maritime Education and Training the JJUC is expecting to blend into their already highly skilled group of officers and crew the most qualified, motivated and dedicated junior officers that the Philippines can provide. For further details of the programmes, please click on the MAPUA-PTC logo.

PTC-CSJ Foundation's flagship Growing Good to Great Kids (3G)

JJUC supports the PTC-CSJ Foundation. The foundation is a comprehensive approach to improve basic education outcomes, and is now moving towards its sixth year of operation and implementing the 3G Program. Program components include in-school feeding, sports development through baseball, learning enrichment in arts, reading, and training for teachers and parents. With support from donors, the 3G Program benefits almost 3,000 public elementary students every year, and helps to improve the quality and outcomes of basic education in the Philippines.
